Re: **APPLICATION FOR PUBLIC HEARING**
Grand Bay Commingling Facility
Main Pass Block 47 Field
Plaquemines Parish
LOUISIANA

Dear Mr. Commissioner:

Pursuant to the provisions of Title 30 of the Revised Statutes of 1950 and Statewide Order No. 29-D-1, application is made on behalf of Harvest Oil & Gas, LLC (Harvest) for the calling of a public hearing after ten (10) day legal notice, to consider evidence relative to the issuance of an Order giving permission for commingling with production previously approved for commingling at the Grand Bay Commingling Facility production from the following described units, to-wit:

MAIN PASS BLOCK 47 FIELD

The 6A-19 Zone, Reservoir A, as created by Order No. 1331-H;
the 5,900' Zone, Reservoir A, as created by Order No. 1331-G;
and the 5 Zone, Reservoir A, as created by Order No. 1331-K.

The unit well for said units is the Clayton Williams Energy, Inc.; SL QQ 195 Well No. 1 (SN232448). The bulk production therefrom will be metered and then allocated back

by means of monthly well tests. The 6A-19, 5,900', and 5 zones consist of the following described oil, gas and mineral leases, to-wit:

LEASES CONTRIBUTED BY:	LEASE NAME:
Harvest Oil & Gas, LLC	State Lease 195 QQ
Clayton Williams Energy, Inc.	State Lease 18579

The method of measurement and allocation of production, which Harvest is proposing, is explained in the attached description of operations and schematic diagram for the Grand Bay Commingling Facility. As indicated, the production will be metered and then allocated back by means of monthly well tests. Harvest requests that a hearing be called so that evidence can be submitted to substantiate its proposal for the utilization of monthly well tests/meters in lieu of gauge tanks for the allocation of said production. Harvest believes that this commingling of gas and/or liquid hydrocarbons, and the use of well tests/meters for allocation of production in the manner proposed will provide reasonably accurate measurement, will not create inequities, and will afford the owner of any interest the opportunity to recover his just and equitable share of the production.

Harvest will provide for the advertisement of the legal notice in a newspaper of general circulation in the vicinity of the Main Pass Block 47 Field and will post the legal notice in a prominent place in the area of the Main Pass Block 47 Field. Harvest will also mail a copy of said legal notice to the interested parties, including operating and royalty interests.

Attached are (i) a copy of the description of operation and schematic, (ii) a list of Interested Parties, including operating and royalty interests, (iii) a signed statement of reasonable, accurate measurement, and (iv) a check in the amount of \$755.00 to cover the fee for this application.

A copy of this application is being sent to Mr. Richard D. Hudson, District Manager, Lafayette, Louisiana, and to each Interested Owner, Represented Party, and Interested Party after a reasonable effort was made to ascertain the names and addresses of all Interested Owners, Represented Parties and Interested Parties.

Hon. James H. Welsh, Commissioner

Louisiana Office of Conservation
